### Project Description

This project involved ITS and traffic signal operation support services for LaGuardia Airport [LGA] Redevelopment Program to assist the Port Authority of New York and New Jersey's [PANYNJ] Traffic Engineering Group with tasks related to ITS and traffic signal design review and construction support services.

The scope of work included ITS and Traffic Signal field inventory, ITS and traffic signal design review, preparation of ITS and traffic signal maps, construction inspection support, daily review of the LGA Landside Transportation Daily and web-based ITS subsystems [EarthCam, PVMS, CVMS], meetings, and coordination with stakeholders including LGA REO, LGA Redevelopment Group and LGA Operations.

### Competitive Advantages

KAG Engineering, PLLC [KAGE] has a unique portfolio of projects that bridges over 25 years of experience with highway design, ITS, and maintenance of traffic. KAGE utilizes their extensive knowledge of AutoCad, Intelligent Transportation Systems, and design fundamentals to support the LGA redevelopment and LGA Operations.

### Project Duration

Current - 2021
